

Dear colleagues,

On behalf of the Food Ingredients Producers Union we would like to congratulate you on the 25th anniversary.

Over the years, the Agroprodmask exhibition has become a standard of organisation not only in terms of the exposition scale but also the target programme of supporting events. All events are the top for representatives of the food processing industry in Russia, the most outstanding domestic event on the international arena. To visit Agroprodmask means to follow the market trends, understand demands of the customer of the future and to demonstrate ready-made solutions. Every year the level of events is becoming higher, the number of exhibitors – bigger, the geography-wider.

The Food Ingredients Producers Union thanks the exhibition management for many years of support and promotion of interests of the food ingredients industry through organisation and holding of the thematic Ingredients salon, and hopes for the further cooperation.

We sincerely wish the organisers and friendly team of the Agroprodmask exhibition further growth, prosperity, implementation of new projects, creative inspiration, wellbeing, strengths and perseverance for rapid development and stability, and we wish visitors fruitful networking and good results in finding new partners and clients.

Sincerely yours,

President

Tatiana Savenkova

Chairman of the Board Sergey Kraus
