

## Welcome Message to the participants of the 25th Anniversary International Exhibition Agroprod mash 2020

On behalf of the Russian Chamber of Commerce and Industry, I would like to welcome the exhibitors, organisers and visitors to the 25th edition of the International Exhibition for Equipment, Technologies, Raw Materials and Ingredients for the Food Processing Industry – Agroprod mash 2020. Digitalization, automation and robotization of technological processes, safety and environmental friendliness of products are the priorities of development of the Russian agriculture industry in the current economic climate.

Agroprod mash is one of Russia's leading events which brings together Russian and foreign professionals working in the food and food processing industries. It is the place to discuss the trends of the agricultural market and show the latest technical and technological solutions. Here, companies can assess the situation in the industry and adjust their business strategy.

I am positive that Agroprod mash 2020 will give its participants every opportunity to generate beneficial business contacts, find new partners, get an impetus for the industry's further development, as well as contribute to searching for the right solutions to challenges brought by the pandemic.

I would like to wish all participants fruitful work, meeting all objectives, every success and prosperity!
