

Welcome Message to the participants of the 27th International Exhibition Agroprodmash 2022

I am happy to welcome all exhibitors and visitors to the 27th edition of the International Exhibition for Equipment, Technologies, Raw Materials and Ingredients for the Food Processing Industry – Agroprodmash 2022!

The show is traditionally held with the support of the Russian Ministry of Agriculture and the Russian Ministry of Industry and Trade, and under auspices of the Russian Chamber of Commerce and Industry.

Agroprodmash 2022 fully reflects the transformation that is currently underway in the Russian food and food processing industry. This year, 25 product sectors bring together 577 companies displaying the entire spectrum of modern equipment, technology and ingredients. In fact, every seventh exhibitor is a new exhibitor.

Russian companies, manufacturers, suppliers and integrators, make up a significant share of the exhibition. It is important to note that 216 manufacturers from different regions of Russia are widely represented in all the show-rooms, with 34 manufacturers of domestic equipment and ingredients participating for the first time. In many respects, such a large-scale representation of Russian developers was made possible thanks to EXPOCENTRE's fruitful cooperation with the federal authorities, regional business support structures, and industry associations and unions.

I am positive that such meetings allow us to create a highly effective networking platform for industry professionals, adapt businesses to the changing environment, update business strategies, and create promising business alliances.

An extensive conference programme at Agroprodmash 2022 will also focus on anti-crisis solutions and state support measures for Russian food machinery manufacturers. I would like to wish all exhibitors and visitors to Agroprodmash 2022 productive work and meeting all objectives and business commitments that will create additional business opportunities and open up new prospects!

Alexey Vyalkin
Director General
EXPOCENTRE AO
